HYDROMANN

Snow blowers 1200S - 1500S

Our years of experience as a manufacturer of snow blowers for farming tractors have contributed to the development of these small robust snow blowers for compact tractors. The blower works in snow depths of up to 60 cm, and is sturdy enough to clear rebate edges and compressed frozen snow heaps. The unit is equipped with reversible hardened steel cutters. For unloading onto a trailer, we recommend mounting a spout.

Snow blowers :

- > Screw diameter of 500 mm
- > Hydraulic rotatable chute
- > Height adjustable skids
- > Blower with formed blades
- > Adjustable flap on the chute
- > Strong shear bolt

Technical details: (1200S - 1500S)

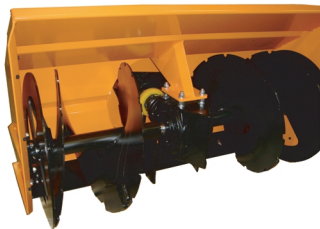

Working width:	1200 - 1500 mm
Height without pipe	710 - 710 mm
Height with pipe	1310 mm
Weight:	240 - 260 kg
Screw diameter	500 mm
Snow throw distance	8 - 20 m
Power required	20 - 40 HK
PTO rpm	540-1000-2000
Surface treatment	Primer + top coat

Also available with hydraulic motor.

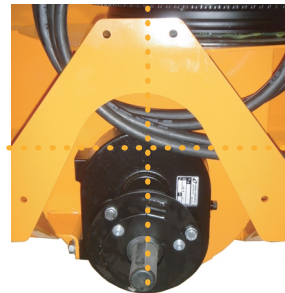

On order, state required rotation direction and PTO r.p.m.

Accessories

- Support wheel
- Edge share
- Discharge pipe
- Hydraulic adjustment of discharge pipe flap
- Electrical adjustment of discharge pipe flap

Screw

Gearbox with two height adjustments

Rotatable pipe
