REVERSIBLE PLATE LG 300 Honda | 500 mm

Art nr: 967 85 53-01

LG 300 is a compact, lightweight yet powerful reversible plate compactor developed for smaller jobs, such as driveways and pathways, private house projects and narrow trenches. The ideal machine to use when macadam beds are thinner and you need nimble, responsive handling. The Honda GX270 petrol engine reduces fuel consumption and emissions, while quality components reduce vibrations. It is equipped with a durable Hardox 400-steel bottom plate.
