

Linktower UFO light tower

The Linktower is one of the most innovative and revolutionary models in the Generac Mobile® range! The **Linktower UFO 400W** is a mobile light tower which can be powered by an external power source like a power generator, the main or another light tower with built-in generator.

UFO LED floodlight

The Linktower UFO is equipped with with a special "UFO" LED anti-glare floodlight providing 360 illumination.

Linkable model

The main feature of the Linktower is that up to 7 Linktowers UFO can be connected in series to a single power source, providing an high illumination area with reduced fuel consumption.

Easy handling

Thanks to the practical manual hand trolley, the light weight and the new jockey wheel, a single operator can handle the Linktower quickly and safely in every kind of working area.

Access lockable doors

The new Linktower UFO has **two lockable doors** to access the inside of the body for documents and tools storage.

New stabilizers

A new model of robust and easy **stabilizer** to perfectly level the light tower in seconds.

Rain cover design

The new frame of the Linktower UFO is designed to better protect the control panel from rain.

New stabilizers

A new model of robust and easy stabilizer to perfectly level the light tower in seconds.
